Dear Josh and Roger:

I talked with Rossi this morning and he would like for us to get together, if possible, during my visit to Berkeley (on Jan. 31 - Feb. 4, for the phage meeting) and to discuss the planet life problem, including the possibility of a West Coast discussion meeting. Will you be available, say, on Saturday or Sunday (January 31 or February 1)?

Looking forward to this, and with best wishes,

Sincerely yours,

S. E. Luria
